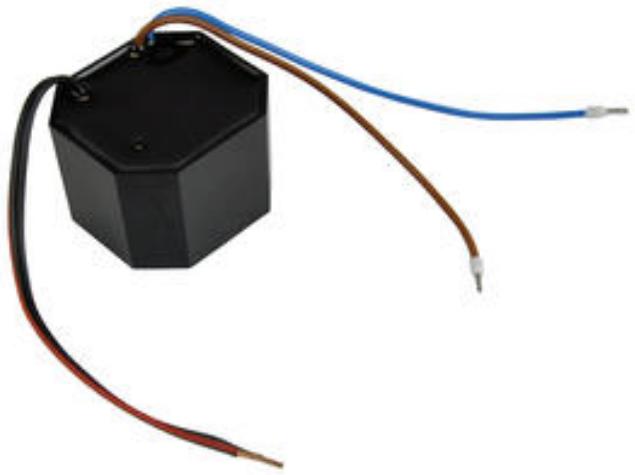
TVAC35200

Mini Integrated Power Supply

The stabilized mini integrated power supply (230 VAC / 12 VDC, 1 A) supplies power to your video components. With its compact size it is particularly suitable for installation in 55 mm flush–mounted sockets and wherever little space is available for power supply.



Product highlights:

- Stabilized mini switch–mode power supply unit
- Ideal for installation in 55 mm flush–mounted sockets
- Voltage: 230 VAC/12 VDC (1 A)
